DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 26 recites “vacuum control valves spaced along the channel in the flat plenum surface, said valves held closed by a high pressure differential between the vacuum plenum and the open vacuum channel and biased to open under a reduced pressure differential between the vacuum plenum and the vacuum channel, the reduced pressure differential provided by a **plenum vacuum connection operative to apply plenum vacuum** to an upstream end of the vacuum channel when the channel is covered by a sheet carried over the channel on the conveyor belts...” (emphasis added). It is unclear how “a connection” per se can apply a plenum vacuum. Also, it is unclear which element or elements are referred to in the instant application by the recited “plenum vacuum connection” set forth in claim 26.

Allowable Subject Matter

2. Claims 13-20 are allowed. Claim 26 is too unclear to make a determination as to allowability of this claim.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
